

# ScreenScape®

## Next Level Digital Signage

Engage your audience with the world's easiest digital signage solution.

- 1 Plugin ScreenScape Connect to any TV's HDMI port**  
This will connect your TV to the internet, so you can publish content from our Media Manager.
- 2 Sign in to ScreenScape Media Manager**  
Create amazing digital signs with our templates and publishing tools from anywhere. Control all of your screens in one place.
- 3 Engage with your customers**  
Use ScreenScape to boost sales, improve customer service, engage your employees, enhance your professional environment or sell advertising.

### Why Should You Choose ScreenScape?

- Simple Setup, Superior Design**  
Set up in minutes with no IT mess. Our Media Manager is packed with professionally designed templates and media assets to create beautiful digital signs for your business with less investment and less hassle.
- Scalable and Collaborative**  
The true value of place-based media is unlocked when your network is running at full scale with a full complement of screens at every location that matters. Collaborate and share content with industry and community partners.
- Cost-effective**  
Save thousands on creative services, deployment challenges, and equipment costs. Our plug and play device can dramatically simplify a large scale roll out and our media editing tools allow non-professionals to achieve professional results. No hidden fees, no surprises.
